

Illuminated Free World Bank

Adamus St. Germain was part of a group who started an abundance bank. **The Illuminated Free World Bank.**

What does that mean? Well, it means a long time ago you and me and a bunch of others, we took literal crystals, valuable jewels – diamonds and rubies and sapphires and emeralds, beautiful jewels – and we said, “*We are going to literally put these into the Earth, into very well protected caverns, caves. We’re going to put these into the Earth, because they have a – because they’re really nice looking – because they hold a lot of energetic attributes.*” And at the time with this stash – several, many stashes – of very valuable crystal jewels, some of them actually not even from this planet, they’re from other places in creation that are simply amazing.

The **Illuminated Free World Fund**, as it has been called, is a very simple concept and it ties very well into what we’re doing here today with knowingness. And I’ll tell you right up front, this fund is available. It is an energy fund. It is not dinero or pesos or dollars. It’s not the Publisher’s Sweepstakes. It’s not winning the lottery overnight, because it’s much more valuable. Much more valuable.

What is it? **It’s an energy reservoir that’s been on hold.** It’s actually been building momentum, you would say, gaining interest, getting grander and grander all the time, just waiting. Waiting for the convergence of those **humans who are really ready to give themselves permission to be Embodied Masters, enlightened beings** on this planet.

When the Earth was being embedded with crystalline pure energies to give it life force – which later became the real crystals of Earth, the stones that you hold, which provided energy for the Lemurians and the Atlanteans – you embedded this thing called the Illuminated Fund. There are twenty-one caves, caverns, deep into the Earth that hold a reservoir or a balance of crystals, valuable crystals. Twenty-one around the Earth, plus the one at the core for twenty-two.

We stored these in certain pockets or caves around the world and said at the right time we will also use these as the grounding mechanism to bring in multidimensional divine energies. And when that happens, there will be a grand abundance, unlimited abundance of energy **for those who are ready, willing and able to handle it; for those who have integrated their own crystalline I Am or at least started the process of bringing it into the body.** It’s not designed for those who just want to be grander, richer humans. It will not – I have to repeat very firmly – it will not work for somebody who just wants to have more human wealth. But for somebody who is bringing in their own crystalline consciousness, it is and will be available.

It is not for those who are seeking power. For those who are seeking power within this, or just riches for what you would call their limited Old Energy use, it will – guaranteed, already embedded in it, already part of the matrix of this – it will drive them crazy. It will. It will.

We want only those who are pure in heart. *Are you ready? Are you giving yourself permission? Do you have doubts?* Because if you enter into this fund and you have doubts, if you enter into it and you’re only looking to manipulate others or trying to be some grandest being in the universe, it will deliberately drive you crazy. We’ve designed it that way. That way, it can never be abused.

You could call it nearly an unlimited supply. It’s amazing, the amount of energy tied up with this. This is **available to those who feel they are ready to handle it, who have a project.**

Now, the project is not necessarily just paying your unpaid bills. The project is saying that you want **to create something.** You want to start **bringing your dreams to reality**, and you’re going to bring in the abundance for it. It will be available. You don’t have to go through a committee. There are no bankers. The nice thing about this illuminated fund is that it is you that goes in and takes as much as you want. *Isn’t that amazing?* No credit checks. No. None at all. No. No committee that’s going to turn you down. You go in and withdraw as much as you want. And the nice thing is you never have to repay it.

A couple of things. You go and withdraw as much as you want, and there’s no obligation debt. There’s no interest. You don’t pay it back. But you have to put it to use. You have to do something with it. You have to do something to manifest your dreams, not somebody else’s. Not to save the world. It won’t work for that. It is for you. **It is a gift for you and you alone**, and there’s plenty for everyone. But it’s not to be used to shape others.

The energies associated with this are backed by the archangels. The archangels have taken kind of temporary residence right now on the New Earth. One hundred and forty-four thousand of them have all convened at the same time. *Why?* First time this has happened since the very creation of the Order of the Arc. *Why are they all there? What are they doing?*

They understand right now the balance between New Earth and Old. They are helping to build the bridge. They are an arc. They are a bridge way between the two. They are helping to support and keep a balance for your withdrawals. They are there as the team that’s helping to keep the energies balanced and moving for you and for your projects.

It will come to you when you're ready for it.

It will come to you when you are clear about your dream, and the dream must be for you alone. Only for you.

The dream may ultimately involve other people, but it cannot be one of the requirements at the front.

The dream is **not about saving Earth. Not a dream to save all the children or heal everybody** or anything like that. Your dream, for you.

One of the most difficult parts of this exercise is going to be making a choice of what your dream is.

Your dream, for yourself. That is a very big, big responsibility, you could say, big question. You already know, the dream is already there. You suppress the dream. You pretend it's not there. You say, *"What is my dream? What is my dream?"* You're not sure.

You wonder, then, *"Maybe is it too big? Is it too much?"* Maybe because of your conditioning as an energy holder – **always serving everybody else – that the dream has to be for others first and then you later. Not at all.**

This fund is only for your dream. Your dream. That's it.

This fund is crystalline, brilliant, expansive. It contains more energy than what you could ever, ever possibly consume. It's unlimited. It is literally backed up by crystals in the Earth. You could say they have a monetary value, but they'll never be cashed in, ever. We're using them for balancing and flowing of energy.

Is the dream to travel this planet Earth and see all of its amazing countries and natural wonders before you conclude this last lifetime on this planet? Why not?

*Is the dream to create a financial abundance for yourself so you never have to worry about money again? Why not? Why not? Can the dreams be multiple dreams? It's up to you. It's not limited to one dream, but the dream must be for **you**.*

Now, if your dream, your happiness, is truly setting up a school to really teach – because you are a teacher at heart – to really teach consciousness; if that is your passion being done for you, not for anyone else, then that qualifies. **But the moment you say, "I need to do it to help everybody else," forgetting about yourself, this will not work.** Will not work.

But if the dream is your passion as a teacher, who are the greatest of all beings in all of creation, who are the most exalted of all. **If your passion is to teach on this planet, to teach how one finds their sovereignty because it's your passion, then this will work.**

But if you're doing it because you're still back here as an energy holder, in the early stages as an Awakening Human and you still have to do the energy holding, it won't work. It must be for you. Must be.

As you learn to dream your dream, the real dream, and bring it into this reality for you, your dream brought forth ... *can you imagine that for a moment? Your real dream, finally? Real dream supported by real energy, supported by real crystals on this real Earth, finally? It's a bit frightening, actually. Finally?* As you learn how to bring forth this energy that's been waiting for you, then – but only then – you can start combining it with others.

The dream may be a Center. **The dream may be some type of joint effort where you're pooling your sovereign resources together.** Sovereign resources. Not group, but where you take you as a sovereign being, combined with someone, as another sovereign being and say, *"Let's create together. As sovereign being to sovereign being, let's create together."* That will also qualify for this fund.

It is real, if you want it to be. It is and always has been there to support your dreams.

It becomes yours. The reality is once you embody it as a Master, the radiance that you have literally expands it for future generations for those who are ready to accept their sovereignty.

The dream, now about to become supported by the energy, Old Energy and New Energy. The dream, brought to life. It is monumental. It is incredible. It is gracious. It is with such ease and grace it'll be amazing.

But, you will doubt it. You will question it. You will wonder if you are worthy. You'll wonder if you have permission. You'll wonder what the trick is. There is none. That's the trick. **There are no tricks. It is you, ready to accept.** That's it. That simple. **A dream, a sovereign being, and the energy to support it.**

And when you're thinking about your dreams and the Illuminated Free World Bank – the energy that's going to support your dreams – and you get a little scared and you start thinking, *"Oh! I'm not sure what to dream, and what if I screw it up,"* stop for a moment, take a deep breath and remember **all is well in all of creation.**
